EAEEIE 2024 – Call for Papers

The EAEEIE conferences intend to bring together professionals, researchers and teachers who work in the field of engineering education, with a special focus on electrical and information engineering. Other engineering areas are also welcome. We can improve and develop engineering education by exchanging ideas and information.

The EAEEIE annual conference is organised by the European Association for Education in Electrical and Information Engineering (EAEEIE). EAEEIE is a European non-profit organisation with members from nearly seventy European universities, most of which provide electrical and information engineering education.

We also cordially invite students and PhD students to share the results of their research. The language of the conference is English.

This year, the EAEEIE annual conference will be collocated with ITHET 2024 and held in Paris between November 5 and 8 as a special ITHET session.

The topic of the current conference is "**Education for Industry Needs**".

The conference's topics of interest include (but are not limited to):

- Educational methods and innovations in engineering education
- Cooperation with the industry
- Experimental learning and learning experiences in engineering
- Educational games and simulations
- E-learning, mobile learning and computer-based learning
- Employability skills development, inclusivity
- Entrepreneurship and innovation
- Ethics and deontology
- Accreditation and quality assurance in engineering higher education
- AI (Artificial Intelligence) in education
- Assessment and evaluation
- Building an interpersonal skill set
- Companies' mindset of quality of starting engineers
- Curriculum design
- Dissemination of European projects
- Distance education methods and technologies
- Gamification in engineering education
- Gender and diversity issues
- Intercultural collaboration
- Interdisciplinary collaboration
- International partnerships and European curricula
- Lifelong learning
- MOOCs
- Research and innovation as a part of education
- Social media in education

Publication

Please follow the [guidelines of the ITHET conference](#) for publication and [paper template](#).

Please see the **ITHET [Call for Papers](#)** and **[submission procedure](#)** for details about submission format, etc.

The proceedings of ITHET 2024 will be available through **IEEE Xplore**.

Special Session Chairs:

- Anna Friesel, Prof. (retired), Technical University of Denmark (DK); anna.friesel@ithet.net
- Jaromír Hrad, EAEEIE President, Czech Technical University in Prague (CZ)

Important Dates

Submission of **Full Papers**	~~31/8/2024~~ ~~03/09/2024~~ 09/09/2024
Notification of Acceptance	~~14/9/2024~~ 19/09/2024
Submission of Camera-Ready Papers	11/10/2024
Registration	11/10/2024
